8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: The year to date cashflow from operating activities was in fact a surplus due to the receipt of some large tax refunds for resource expenditure incentives in Canada. The Company used these refunds to repay a backlog of creditors and payments were unusually high for the quarter. The Company's remaining cash reserves noted as being \$961,000 is sufficient to cover the typical operating activities / costs of the Company.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company is in the process of acquiring the Sturec Gold Project. If the acquisition completes, the Company will require further funding. The Company is confident it can raise non-equity focused funds to progress the Sturec Gold Project. The Company has held discussions with numerous interested parties which are still ongoing.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. The Company has sufficient funds to acquire the Sturec Gold Project and continue normal corporate operations. The Company will seek to secure additional funds with non-equity focused investors as noted above to commence exploration and to conduct metallurgical test work on the Sturec Gold Project and also to continue exploration on its Canadian lithium projects.
